

Course Syllabus: Information Management 1st Semester, A.Y. 2026–2027

Course Information

Instructor: [IM Instructor Name] | Units: 3 | Schedule: MWF 10:00–11:00 AM | Room: IT Lab 2

1. Course Description

Information Management covers the principles and practices of managing organizational information resources. Topics include database systems, data modeling, information architecture, records management, knowledge management, information security, and enterprise information systems. Students will analyze real-world information management problems and propose solutions using standard frameworks and tools.

2. Learning Outcomes

- LO 1: Design and implement relational database schemas using normalization techniques.
- LO 2: Apply information architecture principles to organize and structure enterprise data.
- LO 3: Evaluate information security risks and recommend appropriate controls.
- LO 4: Use SQL and database tools to retrieve and manipulate organizational data.

3. Weekly Schedule

Week	Topic	Assessment
1	Introduction to Information Management; Data vs Information	Quiz 1 Knowledge
2	Database Concepts; Relational Model; Entity-Relationship Diagrams	Lab 1
3	Normalization; 1NF, 2NF, 3NF; Functional Dependencies	Lab 2
4	SQL Fundamentals; SELECT, INSERT, UPDATE, DELETE	PT 1
5	Advanced SQL; Joins, Subqueries, Aggregate Functions	Lab 3
6	Information Architecture; Taxonomies and Metadata	Quiz 2
7	Records and Document Management Systems	Lab 4
8	Midterm Examination	Midterm Exam
9	Knowledge Management Systems; Communities of Practice	PT 2
10	Information Security Fundamentals; CIA Triad	Quiz 3
11	Access Control; Authentication and Authorization	Lab 5
12	Enterprise Information Systems; ERP and CRM	PT 3

13	Data Governance and Compliance; GDPR, Data Privacy Act	Lecture
14	Cloud-Based Information Systems	Lab 6
15	Case Study: Information Management Failure Analysis	Group Report
16	Final Examination	Final Exam

4. Grading System

Component	Weight
Quizzes	20%
Laboratory Exercises	20%
Performance Tasks	20%
Midterm Exam	20%
Final Exam	20%

5. Course Policies

Attendance: Students must maintain at least 80% attendance. Absences beyond the allowable limit will result in a grade of Dropped.

Laboratory: Students are expected to save and back up all lab outputs. Lost files due to negligence will not be grounds for re-submission.

Academic Honesty: Sharing of exam answers, plagiarism, or copying of laboratory outputs is a violation of academic integrity and will be dealt with accordingly.
